

DVD IMB Specification				
Europe	DVD	EDS006	Issue 2	July 2005

The green area on the following diagram is the area used to carry an “animated” image (e.g. for Microsoft XBOX) as an Inner Mirror Band hologram for DVD. The IMB will be visible from both sides of a printed DVD and always right reading from the printed side. However, for DVD 5 the IMB is only visible from the printed side.

Label print specification: SB7  
 Inner Diameter: 34mm  
 Outer Diameter: 116mm
