Technicolor Wales is located in Cardiff, Wales at Wolf Studios. Supporting all productions in Wales, we have a multi-purpose, state-of-the-art picture and sound suite, as well as space for VFX and front-end services including dailies. The facility is connected to all of Technicolor's locations across the globe, through the Technicolor Production Network, giving creatives easy access and insights to their projects, no matter where they are shooting, posting or working.
